

RAY MAX

DUAL LAYER CONSTRUCTION SOLID TYRES

RayMax is our mid-range tyre, designed for every-day applications. The premium tread compound greatly reduces chipping, chunking and breaking and also provides for a comfortable ride. It boasts low rolling resistance which increases the lifespan.

Manufactured under ISO 9001 Quality Assurance standards; embossed on the sidewall of the tyre.

- ✧ Manufactured using high premium rubber compounds
- ✧ Wear, tear & cut resistant.
- ✧ Designed for use in 8 - 12 hour operations
- ✧ Deep tread design to allow for maximum traction in slippery conditions and long life
- ✧ Steel creel bead wires in the base layer to eliminate slippage and increase safety
- ✧ Full manufacturers guarantee
- ✧ Great comfort and elasticity
- ✧ Extremely reliable and cost effective
- ✧ Excellent rolling resistance - Increasing tyre lifespan & lower fuel costs
- ✧ Available in standard and clip lock; black options only
